Alpine Motorhome Systems

Alpine Motorhome Navigation

The Alpine motorhome navigation systems are specifically designed to be used in motorhomes and camper vans and have many additional features and functions compared to regular car navigations to support you on your vacation trips.

Professional Motorhome Navigation

- Pre-Installed TomTom maps for 48 European countries and over 100.000 POIs
- 3 years free-of-charge map updates (unlimited number of free updates possible within 3 years)
- World-wide maps can be additionally purchased and installed (including maps of America, Africa, etc)
- GPS and Glonass compatibility for highest positioning accuracy and fast position finding
- Easy to use iGo Primo nextgen user interface with split-screen view (audio & navigation)

TomTom MAPS

3 YEARS FREE MAP UPDATE

Motorhome Profiles

Motorhome Profile

- Chose between 3 pre-set motorhome sizes (S/ M/ L)
- Create your own profile with input of vehicle length, width, height and weight
- The system will only propose routes that match your vehicle criteria
- International speed limit indications based on your motorhome weight

park4night Inside

park4night inside

Alpine motorhome navi systems come pre-installed with the amazing park4night campsite database that can be used offline right on your Alpine display.
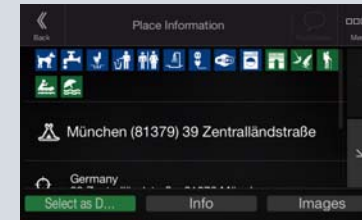

Over 120.000 Camper POIs
Displayed with easy to understand icons, it givs a great overview of all services offered at each campsite

Many Search Options
Search by country, category, region, along the route or at your final destination
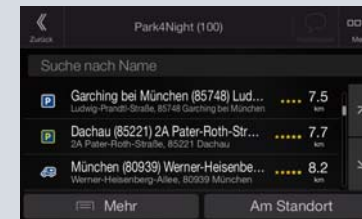

User Ratings
1 to 5 star user ratings are displayed for each camp-site to make selecting the right place easier

Campsite Pictures
Many campsite POIs include photos that can be viewed right on your Alpine screen

Preflight Check

Most damages to motorhomes occur due to driving start while some systems are still in "park-mode". Alpine's Preflight Check is a simple and safe way to remind you before driving to ensure that for example all doors and windows are closed and secured, the gas valve is closed, levelling wedges under the vehicle are removed, etc and you can safely start your journey.

- You can select from pre-defined items to exactly match your vehicle's equipment
- Always shows on the navigation screen before driving start as reminder
- Available in 7 languages

GEO Coordinates

Many camping sites (for example Roadsurfer Spots, etc) that are "off-grid" are often difficult to find and have sometimes no clear street address. By inputting the GEO coordinates, you can give your navigation system a very precise destination and finding these spots becomes very easy.

- All you need is latitude and longitude of your destination
- Easy input in your Alpine navigation
- Works globally and gives precise destination route guidance to even most remote locations

Optional Camera Systems HDR

Alpine offers many optionally available camera systems that make manoeuvring your motorhome much easier and safer. There are front, rear and side camera systems in both single and multi-view configuration available - depending on your needs and budget.

- Instant rear-camera activation by the CAM button on your Alpine unit
- Easily switching between different viewing angles (multi-view cams only)
- HDR Camera technology for excellent picture quality at day and night
- Connect up to 3 cameras with KCX-C250MC (depending on Head Unit)

X903D-DU8 in Fiat Ducato 8

The X903D-DU8 features smart system integration in the new Fiat Ducato 8 and a perfectly adjusted, easy access 23cm (9-inch) display. For Volkswagen T6.1 / T6 / T5

Alpine offers a wide variety of navigation and infotainment systems for the Volkswagen T6.1, T6 and T5. The highly popular line of Alpine Halo systems is now available in several sizes and versions and perfectly integrate in the vehicle's dashboard. If you prefer a flush-mounted display over a tablet-style display in your T5 or T6, you can chose the X803D-T5 8-inch motorhome navigation system.

X803D-T5

Made for your VW Bus

The X803D-T5 features an 8-inch display and is a very elegant solution featuring iGo primo nextgen navigation with 3 years free map updates for your VW T5 or T6. It can be installed at a much steeper angle in your dashboard than common navigation systems. This helps the driver to keep the screen in sight while reducing sun light reflections.

Features	X803D-T5
High-Resolution Touchscreen	20 cm (8-inch)
Built-in iGo Primo nextgen Navigation	●
TomTom Maps with 3 Years Free-of-Charge Update	●
Pre-installed Motorhome Software with park4night	–
Apple CarPlay and Android Auto Compatibility	●
DAB+ Digital Radio	●
Bluetooth hands-Free and Audio Streaming	●

8-inch

Detachable Sun-Visor

The X803D-T5 features a (magnetically detachable) sun-visor to improve visibility of the display in direct sunlight. This is very useful, as the dashboard of the T5 and T6 is very exposed to sunlight.

Multi-Function Display

Your Alpine navigation system is connected to the multifunction display in the instrument cluster to show navigation arrows, radio station names and further information.

Park Assistance Support

You can connect an Alpine camera system or the original VW rear-view camera. if your bus features parking sensors, you can connect them as well and graphically display distances on screen.

Vehicle
Compatible: Ford Transit MY 2018 and newer with Custom with original 1DIN radio
Not compatible: Ford Transit Custom MY 2018 and newer with original navigation system

Motorhomes with 1-DIN radio or radio preparation. Cable harness with ISO/MiniISO connectors required.

Online Navigation
The iLX-F115TRA and iLX-F905TRA have no built-in navigation, but you can use Google maps or many other apps via Apple CarPlay or Android Auto.

Enjoy Excellent Sound Quality
All 3 Halo systems feature excellent sound quality and come with many sound tuning options to adjust the sound to your taste.

Built-in Navigation with TomTom Maps
The INE-F904TRA features pre-installed motorhome navigation with TomTom maps, park4night database and many more useful navigation features.

11-inch iLX-F115TRA
11" Digital Media Station for Ford Transit Custom (from 2018)

9-inch iLX-F905TRA
9" Digital Media Station for Ford Transit Custom (from 2018)

9-inch INE-F904TRA
9" Advanced Navi Station for Ford Transit Custom (from 2018)

Universal Motorhome System

If you would like to build your own motorhome system or if you own a vehicle, that is not listed in this catalog, you can use any universal product shown in the following pages to equip your vehicle.

ALPINE Halo9 Navi

Welcome to the Future of Car Media

The Alpine Halo9 features a very elegant, ultrathin 9-inch touchscreen display and is now also available with built-in navigation. The Halo9 perfectly installs in any car with 1DIN radio slot, while the display position can be adjusted as desired.

INE-F904D Advanced Navi Station

Works with Apple CarPlay · android auto · Spotify · iGO · TomTom MAPS · 3 YEARS FREE MAP UPDATE · HDMI · Bluetooth · dab+ · Made for iPhone | iPod · WVGA

MX · PreOuts · 4V PreOut · bassengine pro · Parametric EQ · USB · Vehicle Data-Bus Interface

- 9" (23cm) WVGA Touch-Screen
- Works with Apple CarPlay (wired)
- Works with Android Auto (wired)
- Built-in DAB+ Tuner
- 4 x 50W High-Power Amp
- GPS / Glonass antenna included
- iGo Primo Nextgen Navigation

- TomTom maps for 48 countries
- 3 Years free of charge update
- FLAC / MP3 / WMA / AAC Playback
- Bass Engine Pro + SQ
- 6-Channel Digital Time Correction
- 9-band Parametric EQ
- 2-Way Digital X-over

- Bluetooth® Hands-Free Operation
- Bluetooth® Audio Streaming
- HDMI input / output
- 1 A/V AUX Input
- 3 PreOuts (4 Volts)
- USB Port
- MediaXpander

- Vehicle Data-Bus Interface Ready
- Steering Wheel Remote Control Ready
- 1 Direct Camera Input
- Security Code

9-inch

Built-in Navigation with TomTom Maps

The built-in iGo Primo nextgen navigation system uses TomTom maps and comes with pre-installed maps for 48 European countries. Select from hundreds of thousands of POIs to find anything you are looking for. You can frequently update your TomTom maps database free-of-charge for the first 3 years, then you can purchase map update packages at a very reason-able price.

1DIN Chassis – 9" Screen

The INE-F904D features a 1DIN chassis, making it immediately compatible with any vehicle with either 1DIN or 2DIN radio dock. The touch-screen is attached to the front of the media box with steel brackets to achieve a rock solid display.

Works with Apple CarPlay and Android Auto

Simply connect your smartphone to the USB port of your Alpine Halo9 Navi and launch Apple CarPlay or Android Auto to communicate, navigate and stay entertained with your favourite smartphone apps. Use Apple maps, Google maps, Waze, Spotify, Amazon Music, Google Play Music, What's app and many other popular apps right on your 9-inch touch-screen.

Drive-Assist Cameras & Vehicle Connection

1 camera input allows the connection of an Alpine front or rear camera systems. With the KCX-250MC you can even connect up to 3 cameras to the Head Unit. Alpine also offers many vehicle data-bus interfaces to connect your Alpine Halo system to your vehicle's data-bus. This enables usage of your vehicle's steering wheel control buttons, display of air conditioning settings as well parking sensor display.

INE-F904DC Advanced Navi Station

Product features and specs are identical to INE-F904D, but include motorhome software & profiles and park4night & Boardatlas databases.

park4night Inside

This navigation system comes pre-installed with park4night camper software. The extensive database offers over 120.000 camping sites across Europe and works fully offline. You can search for your next camping site by category, country or region - along your route or at a final destination.

Pre-installed Motorhome Profiles

You can choose between 3 different motorhome profiles (small, medium or large motorhome) or create your own profile. The Alpine system will take the measures and weight of your vehicle into account and propose only routes suitable for your vehicle.

ALPINE Halo11 / Halo9

iLX-F115D Digital Media Station **11-inch**

Works with Apple CarPlay · androidauto · Spotify · HDMI · Bluetooth · dab+ · Made for iPhone | iPod · flac

Class-D · MX · 6 PREOUTS · 6V PreOut · bassengine Sound · Parametric EQ · 2xUSB · Vehicle Data-Bus Interface · Hi-Res AUDIO

- 11" (28cm) WXGA Touch-Screen
- Works with Apple CarPlay (wireless)
- Works with Android Auto (wired)
- Built-in DAB+ Tuner
- 4 x 50W Class-D High-Power Amp
- FLAC / MP3 / WMA / AAC / WAV / APE Playback
- Hi-Res Audio Playback (up to 96KHz / 1.536 kbps)
- Bass Engine Pro + SQ
- 6-Channel Digital Time Correction

- 56-band Parametric EQ
- Digital X-over
- Bluetooth® Hands-Free Operation
- Bluetooth® Audio Streaming
- HDMI input / output
- 3 PreOuts (6 Volts)
- 2x USB Ports (1 charging port, 1 data port)
- 1 A/V AUX Input
- MediaXpander
- Vehicle Data-Bus Interface Ready

- Steering Wheel Remote Control Ready
- Remote Control Ready
- Display angle adjustable after installation
- Compatible with RUE-BK01 Volume Controller
- 2 Direct Camera Inputs
- GPS Antenna Included
- Security Code

INE-F905D Digital Media Station **9-inch**

Product features and specs are identical to iLX-F115D, but includes a 9" (23cm) WXGA Touch-Screen.

WXGA 1280 x 720p

11-inch XXL display: the gigantic WXGA touch-screen display features a resolution of 1280 x 720p and includes over 2.7 million pixel elements - making icons, menus and visual content extremely crisp and vibrant in your dash.

Wireless Apple CarPlay

Works with Apple CarPlay

Both the iLX-F115D and the iLX-F905D are wirelessly compatible with Apple CarPlay and let iPhone users access their music, navigation and communication apps. Due to the WiFi connection, you can keep your iPhone in your pocket (except for charging).

2x USB Ports **2xUSB**

2 USB ports located on the back of both units allow you for example to connect one mobile device for charging, while the other USB port is used to plug in a USB stick or hard drive to access audio and video files.

Enjoy Excellent Sound Quality **Class-D**

The 2nd generation Alpine Halo models are the world's first aftermarket Head Units featuring a built-in Class-D amplifier for excellent sound quality. They can also playback Hi-Res Audio files up to 96kHz / 1.536 kbps from USB sources and include many professional sound tuning options.

Hi-Res AUDIO

User-adjustable Display

With five vertical adjustments, free angle selection, and two separate depths, you can position the floating display in the most optimal position. The user now can freely adjust the display angle also after installation, to achieve best visibility.

Drive-Assist Cameras & Vehicle Connection

2 direct camera inputs allow the connection of Alpine front and rear camera systems. Alpine also offers many vehicle data-bus interfaces to connect your Alpine Halo system to your vehicle's data-bus. This enables usage of your vehicle's steering wheel control buttons, display of air conditioning settings as well parking sensor display.

Recommended Accessories

RUE-BK01
Wireless Volume Controller

Can be attached to the left or right side of your Alpine Halo11 or Halo9 display for easy access. This controller can not be used when wireless Apple CarPlay is in use.

iLX-W690D Digital Media Station `7-inch`

Works with Apple CarPlay · androidauto · Bluetooth · dab+

7-inch universal Digital Media Station with online navigation through Apple CarPlay or Android Auto.

Your Journey to a New Sound Experience

Alpine Adventure Audio sound systems are designed to deliver excellent sound quality and match the needs of motorhome and camper van owners. These systems feature new, innovative audio-technologies to achieve the best sound quality in your motorhome and also upgrade the interior looks of your vehicle.

Adventure Audio for
Fiat Ducato 3

Upgrade your Fiat Ducato 3 (X290 or X250) or Ducato-platform motorhome with this amazing 3-stage sound system. For the best sound quality and performance we recommend to combine all 3 systems for a true Concert Ensemble sound experience.

Stage 1 — On-Dash Radial Speaker System

SPC-R100-DU
12cm Radial Speaker System (45W RMS)

You can drastically increase the sound quality by adding full-range, radial speakers on top of your dashboard. The SPC-R100-DU comes with custom-fit brackets for on-dash mounting and do not require any holes to be cut into the dash. The 12cm radial speaker design creates an excellent sound stage in the cabin and strongly improves the vocal sound quality. Especially vocals appear much clearer when listening to news or podcasts. The speakers are compatible with X290 and X250 vehicles and do not interfere with "Remifront" or other windshield blinds.

Stage 2 — Subwoofer System Upgrade

SWC-D84S
Custom Subwoofer System

By adding this custom subwoofer system in your Ducato's center console, the bass sound will strongly improve. The subwoofer's sealed enclosure integrates perfectly below the cupholders for a real stealth installation (factory installed cupholders are mandatory). The 250 Watts shallow type subwoofer with dual voice coils gets connected to the rear channel output of your factory or aftermarket radio system. We recommend to use the SWC-D84S together with the SPC-R100-DU and the SWA-150KIT for the best, concert level sound experience.

Stage 3 — Amplifier Upgrade (for Subwoofer)

SWA-150KIT
2-Channel Amplifier System

You can further improve the bass output and dynamics of your SWC-D84S subwoofer system by adding this 150 Watts 2-channel power amplifier. The amplifier itself can be easily installed in the compartment behind the cup holder. There is also a wired bass remote controller included, that can be installed in the dashboard for quick and easy access to the bass power adjustment. Additionally, we have included a full wiring harness for easy plug-and-play installation with your Head Unit. If you have the VP1 or VP2 original radio, you will additionally require a 52pin /ISO cable adapter.

Adventure Audio for
Volkswagen T6.1 / T6

Whether you use your Volkswagen T6.1 / T6 as a transporter, family van or camper van - a good sound system can turn any drive into a more fun experience. Alpine offers several sound components for these vehicles to achieve your desired audio experience. They are not only a joy to listen to, but also a breeze to install, and their distinctive design will spruce up any cockpit without spoiling the original cabin cosmetics.

Stage 1 — Adventure Audio Component Speaker Systems

Your Volkswagen never sounded so good

Bring high-fidelity audio to your Volkswagen T6.1 / T6 at an affordable cost with these Adventure Audio speaker systems. From deep, rich bass to accurate mids and crisp, clean highs – you will hear every note with a new sense of clarity. The speaker systems handles up to 180 Watts peak power and provide an audiophile listening experience. The included 28 mm audiophile-grade silk dome tweeters with back-chambers feature stunning clarity and fast dynamics.

Designed to be seen and heard

The first thing you will notice about these speakers are the beautifully designed stainless steel tweeter grills in the A-pillars, that replace the original plastic VW grills. We use a cutting-edge chemical photo etching process for highest aesthetics and acoustics performance, to make them look stunning from every angle – yet acoustically optimized and virtually transparent to the sound waves passing through them.

Volkswagen T6.1 / T6 Adventure Audio Speaker Systems

Vehicle	Model	Type	Power Handling
Volkswagen T6.1	SPC-106T61	2-Way, 16,5cm Component	60W RMS / 180W max
Volkswagen T6	SPC-106T6	2-Way, 16,5cm Component	60W RMS / 180W max
Volkswagen T6	SPC-108T6	2-Way, 20cm Component	100W RMS / 300W max

Stage 2 — Adventure Audio DSP Amplifier / Subwoofer System

550W Max DSP Amplifier for excellent sound quality

Upgrade your Alpine Adventure Audio speaker system for Volkswagen T6.1 or T6 to the Concert Ensemble with this 550 Watt 6-Channel DSP amplifier / subwoofer system. This sound upgrade will add lots of power output, dynamic and bass to your existing Alpine speaker system to achieve the ultimate listening experience in your vehicle. The 550 Watt DSP amplifier is pre-programmed to perfectly match the sound characteristics of the T6.1 / T6.

Powerful Bass Upgrade

Enjoy strong, powerful bass with the included 180 Watt subwoofer to make all your audio tracks sound even more exciting. The dual-coil subwoofer comes pre-installed in a sealed wooden enclosure, installed under the passenger's seat of your T6.1 or T6. It is also compatible with the rotary seats of the California version, as well as the seating bench of the Caravelle van (installation position for Caravelle with 2-person bench is under the driver's seat).

Volkswagen T6.1 / T6 DSP Amplifier / Subwoofer Systems

Vehicle	Model	Type	Power Output
Volkswagen T6.1 / T6 with OEM radio	SPC-D84AT6	6-ch DSP amp / 20cm sub	550 W total max
Volkswagen T6.1 / T6 with Alpine radio	SPC-D84AT6-R	6-ch DSP amp / 20cm sub	550 W total max

Adventure Audio for
Mercedes Sprinter 907 / 910

Upgrade your Mercedes-Benz Sprinter 907 / 910 with the new SPC-106S907 high-end component speaker system. This Alpine Adventure Audio system for the MB Sprinter perfectly unites function with form: enjoy audiophile grade sound quality, while the beautiful photo-etched stainless-steel tweeter grills simply look stunning on your dashboard. You can further upgrade your system with a DSP amplifier / subwoofer system.

Stage 1	Adventure Audio Component Speaker Systems

Made for Mercedes Sprinter 907 / 910

28 mm audiophile-grade silk dome tweeters with back-chambers produce crisp, clean highs that let you hear every note with stunning clarity and fast dynamics. Our sound engineers also created audio optimized tweeter installation brackets for the dashboard, allowing the tweeters to point right at the listeners in the cabin. These tweeter brackets are fully compatible with the Mercedes windshield blinds.

Dynamic mid-bass experience

The Alpine-designed dynamic mid-range speakers produce a wide frequency range that uncovers the rich details of every audio track – delivering your favorite songs with powerful mid-bass and amazing texture and accuracy. The included steel base rings ensure a rock-solid, vibration free connection to the door frame and perfectly seal the door interior from moisture due to the attached silicone seals.

Mercedes Sprinter 907 / 910 Adventure Audio Speaker Systems

Vehicle	Model	Type	Power Handling
Mercedes Sprinter 907 / 910	SPC-106S907	2-Way, 16,5cm Component	60W RMS / 180W max

Note: if your MB Sprinter is equipped with the 10" MBUX system, please additionally install the EXA-21CA252 center speaker adapter

Stage 2	Adventure Audio DSP Amplifier / Subwoofer System

Upgrade to Concert Ensemble

If you have already installed an Alpine Adventure Audio speaker system in your Sprinter 907 / 910, you can further upgrade your sound experience to the Concert Ensemble with the SPC-W84AS907 for even more dynamics, power and bass, as well as a better staging with digital time correction. Enjoy your favorite tunes with the unparalleled Adventure Audio listening experience.

More power, more dynamic

The Alpine 550 Watt DSP amplifier ads much more power and dynamic to your entire sound system and additionally drives the included 300 Watt dual-coil subwoofer. The DSP amplifier is pre-programmed to perfectly match the sound characteristics of the Sprinter 907 / 910 cabin, but can be further adjusted for steering wheel configurations (left or right), radio type and other factors. Note that there are 2 different versions available, depending on your radio type.

Mercedes Sprinter 907 / 910 DSP Amplifier / Subwoofer Systems

Vehicle	Model	Type	Power Output
Mercedes Sprinter 907 / 910 with OEM radio	SPC-W84AS907	6-ch DSP amp / 20cm sub	550 W total max
Mercedes Sprinter 907 / 910 with Alpine radio	SPC-W84AS907-R	6-ch DSP amp / 20cm sub	550 W total max

Camera Systems

With Alpine cameras you will not miss a thing: benefit from the excellent image quality in all lighting conditions through HDR technology

Safe manoeuvering: obtain a high level of safety and comfort through Alpine rear view cameras with 180° coverage

High Dynamic Range Cameras for Greater Safety

Alpine's all new HDR cameras are simply amazing and offer many new technologies as well as on-screen operation to make manoeuvering your camper van easier and safer.

- High-resolution camera for great picture quality and high details
- High contrast even in low light and bright environments
- Fast exposure adjustment when moving from dark to bright environments
- Various camera installation kits available (see page 33)

HDR Multi-View Rear Camera
HCE-C2100RD
- 4 viewing modes with distance guides: rear view, panorama view, corner view, top view
- Ultra-wide angle camera H 180° / V 125°
- Mirrored image

HDR Rear View Camera
HCE-C1100D / HCE-C1100
- Rear view with distance guides
- Viewing angle H 131° / V 103°
- Direct Alpine connection: HCE-C1100D
- RCA connection: HCE-C1100
- Mirrored image

HDR Multi-View Front Camera
HCE-C2600FD
- 3 viewing modes: panorama view, corner view, top view
- Ultra-wide angle camera H 180° / V 125°

KWE-EX20CAM
20m Connection Cable for HCE-C2100RD camera

Alpine Dash Cams – Your Personal Eagle Eye on the Road

A dash cam is an on-board camera that continuously records the view through the vehicle's windshield. The recorded footage can be used as evidence in the event of a road accident. When parked, dash cams can capture video and picture evidence if vandalism is detected. Alpine offers two high-end dash cams that include drive assist functions, as well as two regular recording models.
