FOCAL[®]*INSIDE*

For the past four decades, Focal has been stamping its unique sound signature on high-end speaker drivers and acoustic loudspeakers.

The brand's values are innovation and performance, excellence and pleasure. We are renowned the world over for our exclusive technologies. The result of this technological heritage is a sound reproduction imbued with clarity, power and a natural quality, presenting you with the best products in their category.

With the Focal Inside range, we deliver Plug & Play solutions that are perfectly suited to and easy to install in a large number of car models.

Create the sound experience of your dreams.

FOCAL[®] *INSIDE*

One car, one audio solution

The Focal Inside range is aimed at all drivers who wish to replace their original car audio system with a quality hi-fi Plug & Play solution that is easy to install without modifying the environment. Different configurations are available for each car make (40 makes) and each model (more than 700 vehicle models), and the mounting accessories are included in each kit. For optimal performance, amplification solutions complete our offering. Configure the solution of your dreams in just a few clicks.

SUBWOOFERS

To enjoy impactful bass, our engineers have designed the ISUB TWIN and PSB200 passive subwoofers. The ISUB TWIN are ultra-compact, can handle up to 100 watts RMS each, and are easy to install beneath the seats. They are optimised to be connected to the Impulse 4.320 amplifier (*see chapter 3*) but also combine very well with the Focal Inside solutions and traditional Focal products. They can be screwed to the floor or fitted using the self-adhesive strips supplied. PSB200 is compact and robust, offering 250 watts of power and sliding easily into a car boot. Brackets, screws and a set of velcro strips are supplied to mount your way.

03. CABLES & ELECTRONICS

To benefit from a dynamic and efficient system, the Impulse 4.320 digital amplifier and Focal Inside cables complete our solutions. Impulse 4.320 is compact, with 4 channels each delivering 55 watts and enabling the speaker drivers to express their full potential. Optimising the connections between car radio, electronics and acoustics, the dedicated Focal Inside cables play their own essential role in your audio architecture. Adaptation cables, extension cables, connection cables, direct power cables, impedance simulator, and more: they guarantee the performance and safety of your installation.

IMPULSE 4.320

COLLECTIONS

Combining performance and design, Focal's collections are a revelation, awakening the emotions through a supreme listening experience. And it doesn't matter where you are. At home with traditional and in-wall/in-ceiling loudspeakers, Home Cinema systems and open-back headphones; on the go with closed-back headphones and in-car kits; in the studio with professional monitors; and even at sea with specialist yacht solutions.
